## Greek Tanks, Troops To Enter Skirmishes

**WALONIKA, (AP)—**Two tank-supported brigades Saturday were reported by Greek Army headquarters to be moving toward the embattled village of Skra, around which a four-day skirmish has been raging, with fighting concentrated in the mountains between Skra and Archangelos, just south of the Yugoslav border.

An army communiqué said 22 of the attackers, who numbered more than 800, were killed in Friday's action in which the assaulting forces were hurled back for the second time in three days, with four Greek soldiers killed and seven wounded.

The communiqué added that the 3rd Army forces had cut off 250 of the attackers on Mount Palkon and that the latter were trying to establish contact with their comrades who "sought refuge in Yugoslavia" after the original attacks, six miles south of the Yugoslav border.

The high command in Athens quoted the 3rd Army commander Gen. Constantin Ventris, as saying more than 1,000 persons were concentrated on the Bulgarian side of the Greek border at the point where the two borders join Yugoslavia. (Reports in Athens said Skra was virtually destroyed by the hand, which attacked with three-inch mortars and heavy machine-guns.)

(Other Athens reports said Greece's Rimini Brigade, veterans of mountain fighting in Italy, apparently have broken the back of leftist band resistance in the entire Kivassos mountain range, west of Larissa.)

### Search Extending In Coast Slaying

**NORTH VANCOUVER, (CP)—**Search extending deep into the heavily wooded hill country around the town of North Van, where a young man was slain last week, Friday failed to reveal the fate of an 18-year-old youth sought in the slaying of Robert P. Thompson, 30-year-old handyman. Thompson was clubbed, shot to death Thursday, and later his body was washed and buried in the sea near a new home was built.

A police bulletin named Donald Smith of North Vancouver as the youth sought and warned: "Extreme care must be taken in apprehending the boy."

### Big 5 May Seek Formula on Veto

**LAKES SUCCESS, N.Y. (CP)—**A temporary lull in the heated debate raging over Big Five control of the United Nations security council was expected to follow a proposal Saturday that the Big Five delegation leaders get together on means of reconciling use of the veto.

A French plan aimed at softening the veto was submitted to the big powers by Foreign Secretary Bevin as a basis for Big Five consultations on a veto which authoritative sources said probably would begin Monday.

As a result of agreement with the Big Five Friday night to hold consultations, France was expected to propose Saturday that the general assembly's 41-power council and security committee suspend the veto debate while the Big Five met to try to agree on a formula which would satisfy their opponents.

Authoritative sources disclosed the British plan said these suggestions:

1. Possibility of limiting the veto to only one vote in the voting council's "own vital interests" were considered.
2. That abstention from voting should not be considered a veto.
3. That the council should be more of a mediation and conciliation board, making every attempt to nip disputes by direct action and thus lessen the opportunity of using the veto.
4. Define more clearly exactly what is and what is not a dispute.

### Polish—Canadians Greet Ex-Soldiers

**WINNIPEG, (CP)—**Three hundred Polish and Canadian veterans of the eight army brigades that fought in the 1945-46 campaign in the north of Canada to 4,000 to arrive in Winnipeg Friday to be greeted by scores of Polish-Canadian living in the district.

### West Scores Win On Trieste Issue

**NEW YORK, (AP)—**The western powers scored a major victory Friday in obtaining Russian acknowledgment that the government of Trieste should have single-handed power to take action in the event of an emergency.

Foreign Minister Molotov of Russia agreed that "in a situation that permits no delay" the government should have complete authority to use the police.

However, the Soviet spokesman maintained that the government should be under the guidance of the proposed council of government, which itself would be controlled by the executive assembly of the internationalized zone.

### Report Cabinet Of Iraq Resigns

**BAGHDAD, (Reuters)—**Premier Arshad al-Umari's Iraq government was reported to have resigned Saturday and informed quarters said Dr. Abdul Hamid Pacha, former prime minister and present minister for social affairs, would form the next government.

Ummat formed a cabinet in June 1946 after the resignation of the three-month-old cabinet of Jawid al-Umari, but before a sudden break in the cabinet on the part of the al-Umari cabinet and the chamber on the alleged weakness on the Palestine problem and slow progress in revising the Anglo-Iraq treaty and because it was unable to submit a new budget in time.

**LONDON, (CP)—**The Moscow radio said Saturday that opposition leaders in Iraq had presented a list of demands to the British government, including the withdrawal of British troops from Iraq and the restoration of independence.

In a statement shedding some light on the reported resignation of the British cabinet, the British cabinet's resignation was said to be a result of the fact that the British cabinet was unable to agree on a plan for the withdrawal of British troops from Iraq.

**TEHRAN, (Reuters)—**Fidel Javali, Iraq foreign minister, interposed a veto Saturday against the British cabinet's resignation, saying that the British cabinet's resignation was a result of the fact that the British cabinet was unable to agree on a plan for the withdrawal of British troops from Iraq.

**To Fight Threat U.S. Coal Strike**

(Continued from Page 1)

It is ready to take steps as drastic as that at the above risk of making "martyrs" of Lewis and his miners, the U.S. would be in a position to fight this new strike threat.

Apert from the havoc which a shutdown of coal production would produce in the still sluggish return of industry to full peacetime production, and the inflationary tendency which a further slowing of the flow of consumer goods would produce, the great danger which Washington sees in a coal strike is the possibility of a vast new wave of labor unrest across the country.

# Students Favor Personality Over Looks in Life Mate

The "college ads" and "pinup" numbers aren't the "dream men" and "dream girls" of most date-hunting college students, according to Anselm Strauss, Indian University sociologist. For when it comes to the big leap, Mr. Strauss reports, it's generally personality—not looks—that tips the scales.

Mr. Strauss' findings, which were reported by AP, appeared in the American Journal of Sociology.

The sociologist bases his theory on studies of the hopes, dreams and notions of 373 engaged or recently married persons of college age, 200 of them women.

Mr. Strauss discovered that looks generally were so unessential that more men and women would disqualify prospective mates for having markedly different political views than because they were not "handsome or good-looking."

A tiny Gallup poll of co-eds at the University of Alberta revealed that they, too, valued other qualities above looks. Although their husbands-to-be should be "attractive to them," they would prefer congeniality and "having a lot in common" to masculine beauty.

Agreeing with the theory that when you marry, you also marry a way of life, they would like their men to have about the same educational and social backgrounds. "But it needn't have a flock of degrees or be in the social register," they add hastily.

They think different temperaments in husbands and wife desirable, pointing out that "the man on the campus" in "on everything chooses the quieter type of girl."

They believe in likeness of religion but don't think different political views any drawback. "That difference in ideas should make their companionship more interesting," they say.

And where to meet their future husbands? Well, the girls agree, a university campus is a mighty good place to be.

### MEYER, director of the Hooper Foundation and professor of bacteriology at the University of California, San Francisco, was the 34th winner of the Sederberg memorial medal presented at the 74th annual meeting of the American Public Health Association.

"Infantile paralysis can be controlled through a vaccine which will be a vaccine that functions similarly to the vaccine against other diseases, such as yellow fever and smallpox."

He said that scientists in many research centers are now at work on a vaccine which experimentally has shown much promise. The experiments are now being conducted on animals.

"THESE methods hold true for human use," he said, "then the control of infantile paralysis will be a reality."

Dr. Meyer said that the research was made possible through grants from the National Foundation for Infantile Paralysis, and said that the foundation "has advanced and will continue to advance the knowledge concerning poliomyelitis."

It is actively probing further into the epidemiology of the disease to seek an explanation of the well-known seasonal incidence of poliomyelitis," he said. "Renewed interest in the field of immunology vigorously supported by the foundation may in the end roll back the disease of its virulence, if not of its very existence."

DR. MEYER said that new methods using an ultra-ultra irradiated vaccine already been successful in protecting certain animals against polio. Another possibility now being looked into by scientists is the production of an egg-vaccine similar to methods used in producing influenza vaccine. In fact, much of the basic research used in the influenza vaccine stemmed from research supported by the national foundation in its search for a polio vaccine.

Dr. Andrew H. Dowdy, professor of radiology and director of the Manhattan department of the University of Rochester, told the association that the \$2,000,000 spent in the development of radioactive isotopes in increasing cellular production and bettering the health of the nation.

DOWDY SAID that it is the goal of scientists to find or synthesize chemicals which will react against cancer. Once this is done, the scientists then use some type of radioactive isotope, such as heavy carbon, to work with cancer, to double-barrel attack on cancer.

Such a possibility is not an idle dream," he said.

Dr. Dowdy said that the "possible benefits to be derived from the peacetime utilization of nuclear energy and its products present to the scientists a satisfaction almost comparable to a victory."

BUCKETS OF MONEY  
LONDON.—(CP)—An old farmer handed a bucketful of money to a post office clerk with the statement: "Here's £1,000 (\$1,000) for the bank and national savings. Two courtesies came out at £200, 'Oh,' said the farmer, 'my wife has given me the wrong bucket!'"

REPLACE all Dangerous Pipes On Home Furnaces  
How long has the pipe that leads from your furnace to the chimney been doing duty without replacement? Is it rusted through in places? Is it broken in places? Is it ready to crumble from old age and neglect? Have you inspected it to make sure?

MANY FURNACE pipes have been in duty for many years and without the annual attention they should get. Many of these pipes are just about "finished." Some of these pipes are going to cause trouble and possibly great danger to health and life in Canadian households during the coming winter.

And, while you're at it, what about the furnace itself? A furnace is too valuable a piece of household equipment to be neglected. It needs cleaning and repairs periodically and if it does not get this attention it will give poor service, waste fuel and prove a real source of danger.

Get your plumbing and heating contractor in to check up on the furnace and the pipes leading from it. It's a small job, but it's a job that should be done before winter sets in.

## Easy to Save Vegetables When Freezing Threatens

When freezing weather threatens the vegetable garden, there is usually a considerable quantity of vegetables in the ground which can easily be stored in good condition until used.

To abandon these is not only a financial loss. They may have to be replaced with food of inferior quality, and less variety, in which case you will not find the same pleasure in eating the product of your own garden.

The time to harvest them for storage is as late as possible, with safety. Squash and pumpkins should be taken in before heavy frosts but most others may be left in the garden until severe freezing weather. Temperatures which freeze the soil will not injure beets, carrots, cabbage and turnips so long as it thaws out the next day, but they should be lifted before the ground begins to remain frozen all day.

Onions, squash, and pumpkins can be kept in any dry place for two or three months without worrying about the temperature. But even these vegetables will keep best in a temperature under 40 degrees.

The stems of the squash and pumpkins in straw or store in shallow slatted racks, so the air will circulate freely about them.

Potatoes and asparagus may be dug up and stored in a dry place for a family serving and each lot placed in a paper bag. These bags may be stored in a box and left outdoors, protected only from the rain. Freezing will improve the flavor of these vegetables, and they are easily removed for serving as needed.

Carrots, beets, turnips, rutabagas, potatoes, apples and cabbage may be stored in a shed or unheated garage for as long as the temperature does not fall below 10 degrees above zero. Place them in boxes packed in soil or peat moss, but not sand; or pack them in cardboard boxes which are placed in a dry box, and surrounded with straw.

All vegetables and fruit placed in storage must be free from decay or injury. Avoid those with skin, structure, and never store vegetables which are wet.

## Campaign Not Fully Successful Chest Drive Officially Over With \$135,000 in Coffers

Edmonton's Community Chest drive has now officially closed with \$135,000 of the \$225,000 objective having been raised. This was revealed at a meeting of the board of directors held in the Macdonald hotel Friday.

DR. HAROLD ORR, PRESIDENT of the Chest, remarked on the apparently poor showing in contributions, drew attention to the fact that this year's contributions were actually 35 per cent in advance of any amount previously secured for Community Chest purposes. He said that this year's objective of \$225,000 included \$125,000 for capital purposes for three of the 28 agencies comprising the Chest.

He went on to say that the fact that the campaign was not fully successful is to be regarded as an indication that the public does not approve combined appeals for maintenance and capital purposes. The directors have accepted that indication and will recommend to future directors of the Chest that campaigns hereafter be restricted to maintenance funds only.

IT WAS ALSO POINTED OUT that Edmonton is the only city in Canada, in the current campaign, making an appeal for both maintenance and capital funds.

R. E. G. Davis, executive director of the Canadian Welfare Council, was in attendance at the meeting, and spoke briefly on the work of Community Chests throughout the Dominion. Thanks were extended to all those who assisted in the campaign in this city.

## Line Breaks Leave Hundreds Stranded as Trams Tied Up

The wide variation in temperature experienced Friday evening was given by the Edmonton transportation system of officials as the cause of overhead line breaks that tied up traffic in the northeast section of the city Friday night and early Saturday morning.

Hundreds of hockey fans attending the opening of the City Hockey League at the Edmonton Arena Friday evening were stranded as the break in the line caused a one-hour delay in street car service.

The line break occurred at avenue and 56 street, and affected service in the southwest section of the city.

The Saturday morning traffic interruption was caused when a wire snapped at 57 street. The Saturday morning traffic break also tied up traffic for about 40 minutes, and left hundreds of early morning workers standing on street corners.

## Start Parcel Post Canada to Poland

Restoration of parcel post from Canada to Poland which was suspended some two weeks ago, was announced today by Hon. Ernest Brehm, postmaster general.

Suspension of the service occurred because of congestion of shipping facilities beyond England. The congestion has been relieved, and resumption of the service made possible.

Parcels may now be sent up to 20 pounds in weight, at the same parcel post rate from Canada to Poland. Friends and relatives in Canada may still send parcels to Poles with assurance they will reach their destinations.

## Before The Magistrate

Donald K. Munro and Arndt McLeod were brought before Magistrate A. H. Miller, K.C. in city police court Friday morning after their apprehension Thursday as a result of a phone call from a woman.

She said three men were putting on storm windows at her premises, and while in the basement where their coats were hung she spotted a revolver and something that looked like a "bomb" in one man's coat pocket.

Investigation showed the revolver and a black jack in the coat belonging to Munro.

Munro pleaded guilty to charges of carrying offensive weapons and carrying an unregistered pistol.

He also stated that he got the pistol from McLeod — hence McLeod pleaded guilty to a charge of possession of an unregistered pistol.

Both of the accused were put over until Nov. 22 for sentence.

Munro told the magistrate that he had taken the weapons with him Thursday morning with intent to use them if he could not get money by working or borrowing.

McLeod said he had obtained the pistol from a returned soldier.

Bill Coals was remanded for trial in supreme court with bail set at \$500 following a preliminary hearing in the city police court.

He was charged with receiving lodgings by fraud and another of theft. Evidence submitted alleged that the accused had obtained over \$120 by false pretenses, owed a debt of \$120 and had been charged with keeping a disorderly house.

He was given a fine of \$125 and costs or an alternative four months imprisonment.

Peggy Manney, charged with living off the avails, was placed in 12 months suspended sentence on the promise that she would leave her home in the city on Saturday morning.

She had given evidence on Friday afternoon against John Schreiner, who was charged with keeping a disorderly house. He was given a fine of \$125 and costs or an alternative four months imprisonment.

## Liberals Hear Stanley Ross

Edmonton Women's Liberal club met at the home of Mrs. N. Buchanan Wednesday evening, with a large attendance.  
Guest speaker was Stanley Ross, who discussed matters of practical interest, as it affects everyday life. "Too often," he said, "we show a tendency to accept facts rather than to speak out, or even disagree."

In dealing with the government's educational policy, he said the number of students enrolled in the public schools is increasing, owing to the teacher shortage. This handicap for youngsters is a long, galloping stride toward the future, is inclined to make young men drifters, and poor family supporters, thus lowering the standard of living in the country.

He suggested some type of legislation should be formed to look into labor disputes speedily, as these cease to be a federal responsibility once the war emergency is over.

Mrs. J. A. Clarke, and Miss Jean Boye, both charter members were named conveners of the club's 29th anniversary celebration to be held later this month.

Next meeting, on the second Wednesday, will be held at the home of Mrs. J. P. Logan, 1034 S. 31 street.

Mrs. W. A. Lamb, president, was in the chair.

Members were introduced to the gathering.

## Fred Podersky Takes Bride

LOS ANGELES, Calif., Nov. 16.—The home of Mr. and Mrs. Golden Los Angeles was the scene of the wedding recently when their niece, Miss Rose Gropper, daughter of Mr. and Mrs. Max Gropper of Saskatoon became the bride of Fred Podersky, son of Mr. and Mrs. Louis Podersky of Edmonton. The ceremony was performed by Rabbi M. Kert under a canopy flanked with white asters and baby's breath.

The bride, given in marriage by her uncle, wore a dressmaker suit in slate gray with accessories in winter white and burgundy, and carried a prayer book covered with white orchids.

The bride's veil was matron-of-honor and wore a black crepe dress with sequins. Her corsage was of white carnations.

Among the guests was the bridegroom's grandmother, Mrs. Rose Podersky of Edmonton. After the ceremony a reception to 75 guests was held.

The couple left by plane for a honeymoon in Vancouver, Banff, Calgary and Saskatoon. Mrs. Podersky has taken up residence at 10249 119 street.

# Today's Message

## TODAY'S MESSAGE

**SIN IS REAL**  
The story is told of the man who had a picture of the leaning tower of Pisa over his desk and every morning was surprised to find it hanging crooked. He asked the cleaning woman if she was responsible and she replied: "Yes, I have to hang it crooked to make the tower hang straight."  
There are many who imitate the cleaning woman in trying to make the crooked seem straight. This is especially true of those who refuse to see the reality of sin. No matter how airily we may talk of sin being a mere matter of subjective opinion, the fact remains that sin is something real and exists independently of what we choose to believe or disbelieve. Furthermore, despite all the alibis we may say, sin is not only real but takes an inexorable toll from the sinner.

If sin be a mere myth or just a theological theory, why do we turn with pity and disgust from those whose faces are etched with depravity, whose speech is tainted with blasphemy and obscenity, who even boast of the shameful deeds they have committed?  
It may be we make a distinction between outright immorality and the "lesser sins" which we ourselves are prone to commit at times. It must be remembered, however, that big sins frequently begin with little sins. The gangster who dies in the electric chair is often the wayward boy who stole fruit from a peddler's cart; the convicted perjurer is the boy who thought that a lie now and then "does nobody any harm."  
We cannot sin for two reasons: it offends God and it degrades—and may even destroy—our souls. Few men live without offending God at one time or another, but we are always assured of being spiritually restored if we repent and try to overcome our weakness. But for the man who pretends to deny the existence of sin—who tries to make the crooked seem straight—there can only be a prayer that he may discover his folly before it is too late.

## Metropolitan Church to Mark 54th Anniversary of Founding

The 54th anniversary of the first church to be erected in South Edmonton will be observed in Metropolitan United Church over the weekend. On Sunday, Dr. George B. Caird, of St. Stephen's College, will be the guest speaker at both services; special anniversary music by the choir under the direction of J. J. Gibb, and the minister, the Rev. R. McElroy Thompson, will conduct the services. On Monday evening the congregation will be at home to its friends, when there will be a short program consisting of piano and vocal selections, a social hour and a friendly cup of tea.

DR. GEORGE B. CAIRD

THE REV. R. McELROY THOMPSON

**THE FIRST** Metropolitan Church was situated between 104 street and 105 street on 83 avenue, and opened Sept. 10, 1892, the year the first train came into South Edmonton. The building committee consisted of Robert McKernan, chairman; Peter Clarke, James Cooper, John Shields, and James Fisher. The church was a frame structure 30 feet by 40 feet, and for a time was used by both the Presbyterians and Methodists.

In February, 1908, a new brick church seating 1,000 replaced the frame structure on the same site. On Jan. 1, 1942, this church was completely destroyed by fire, and plans were immediately made for the erection of a new edifice. **THE PRESENT CHURCH**, situated at 109 street and 83 avenue, was opened, free of indebtedness, on March 21, 1942, with the Rt. Rev. J. P. Slater, Moderator of the United Church, officiating. Sept. 5, 1942, saw the dedication of the new pipe organ, the gift of A. J. Burrows and family. Plans for the new church included a memorial chapel, to be finished at the close of the war and dedicated to the memory of the men from the church who paid the supreme sacrifice in both great wars. It has now been completed, and is dedicated by the minister at a special service on Sunday evening, Nov. 10.

**THROUGH THE YEARS**, the church has grown from an original membership of 15 to a present membership of over 1,000. The new building is completely free of debt and the congregation is being asked to raise a further sum at this anniversary of \$5,000 to complete the present building. A trust fund has been opened for the erection of a social hall east of the church, as soon as materials are available.

### Corps Band Plans Musical Week-End

The Edmonton Citadel Corps Band will present a special musical week-end. Under the direction of bandmaster A. E. Burden an interesting series of events has been arranged.

**ADJUTANT** and Mrs. Edgar Halley, commanding officers of the Saskatchewan Citadel Corps, outstanding speakers, singers and musicians will be in the city to lead these gatherings, which will be held in the Citadel on 102 street.

A welcome meeting will be held at 8 o'clock Saturday evening, and Adjutant Halley will speak. At the Adjutant's meeting at 11 a.m. on Sunday Mrs. Halley will be the speaker, taking as her subject, "In Praise of Adventure." In the afternoon a visit will be made to the young people's meetings where the visitors will bring messages.

**THE SALVATION** meeting at 7:30 p.m. will be under the leadership of Adjutant Halley and his subject will be, "Man's Sin and God's Answer." Instrumental and vocal numbers will be presented by the band and songsters and the visitors at all the above gatherings.

The final event in the week-end series will be a great musical festival to be given by the band on Monday evening at 8 o'clock. Guest artists will be Adjutant and Mrs. Halley and Miss Norma Madill, L.T.C. This program is being given in aid of a new instrument which way has just been launched.

### Christian Science

"Mortals and Immortals" will be the theme dealt with in Christian Science churches on Sunday. It is based on passages like these: "That ye put off concerning the former conversation the old man, which is corrupt according to the deceitful lusts; and be renewed in the spirit of your mind; and that ye put on the new man, which after God is created in righteousness and true holiness." (Ephesians 4:22-24). "Mortal mind must part with error, must put off itself with all address, and immortal manhood the Christ ideal, will appear." (Science and Health with Key to the Scriptures, by Mary Baker Eddy, p. 453.)

# HOW PROUD ARE WE OF OUR CAPITAL CITY

**AS** THE Seat of Government, Albertans look to Edmonton to be the model City of Alberta. Tourists and visitors, whether on business or pleasure bent, expect to find Edmonton a city with modern streets, tidy lanes, ample and well groomed parks, boulevards and play grounds... a background in keeping with the many fine institutions with which this City has been endowed.

Well may they say "What's the matter with the people of Edmonton?" when they drive over our dirt streets and see our deplorable lack of parks, playgrounds and beauty spots. Fact is, Edmonton desperately needs a major face lifting job—we're baggy at the knees. The Civic Administration's \$7,500,000 ten year Road Paving Programme now places it squarely up to us as citizens. Let's support this programme by filing petitions at the City Hall for needed improvements to streets and lanes bordering our property.

## Support Edmonton's Modernization Programme

Citizens are urged to give their fullest support to the \$7,500,000 ten year Road Paving Programme approved by our Civic Administration, by presenting their petitions quickly as possible in order that they may be included in the 1947 estimates. Community Leagues, here is your opportunity to get the improvements so badly needed in your districts, by urging your members to get their petitions signed up immediately.

District Holstein Is Winner at Royal

Here is "Dorchester Little Joe," a registered Holstein bull, bred and raised in Edmonton dairy town, which has carried off honors for Alberta at the Royal Winter Fair in Toronto. This three-year-old purebred black-and-white was one of a class of 18 entries shown in the big show ring and was only edged out of championship by a \$3000 dairy bull exhibited by J. M. Gibb of St. Albert, who attended the fair, the bull pointed above was bred by J. W. Hoffer, master Holstein breeder of South Edmonton. Mr. Gibb won the championship with this bull at Edmonton summer exhibition in 1945 and again in 1946 against strong competition. "Little Joe" weighs 2,800 pounds. Mr. Gibb has a herd of 60 Holsteins, including 21 purebred, accredited and T.D. tested milk cows providing city milk.

## SITDOWN STRIKE

IT HAD been raining off and on for nearly a week and the Chinaman was very discouraged. It was most trying to live in a teapot along with a week's washing of wet clothes even though it was a Teenie Weenie washing.

"Allie same me sorry to live all time with wet clothes everywhere," the Chinaman complained to the Turk.

"What you need is a drying house," said the Turk.

"That what me thinks," answered the Chinaman brightly. "Me all time think that berry basket you found the other days would make a velly fine house to dry clothes in."

"Shucks!" exploded the Turk. "We're going to use the boards in that berry basket to put down a new floor in the town hall. That lumber is too good to use for a drying house."

"Allie light," said the Chinaman, "no drying house no more washie. Me do no washie until me gets a place to dry clothes. Me tired living in teapot with wet washie."

The following week the Chinaman refused to do the Teenie Weenie washing. He went fishing with the Dunce and visited Skippy, the chipmunk, and birds who live near the Teenie Weenie village. When two weeks' washing piled up and there were no clean sheets for the Teenie Weenie beds, the little people began to complain.

"Allie light," said the Chinaman, "make dry house out of that berry basket and I washie."

BY WM. DONAHUE

Weenie saws and nails and the men hoard a berry basket for that reason. The Turk offered to move up a pasteboard box for a drying house, but the Chinaman refused that on the grounds that it would get wet and soon break down. Finally there wasn't a clean handkerchief or bed sheet in the village. The Cook washed out his dish towels occasionally and the Lady of Fashion washed her bedclothes and tiny undergarments in a thimble. Finally, the Turk agreed to build a drying house for the Chinaman out of the

berry basket the Teenie Weenies had been saving.

The men moved the basket near the teapot, cut in windows, made a door and built on a waterproof roof. The Chinaman was delighted and he set to work washing all the soiled Teenie Weenie clothes. He washed and ironed for days before he had all the clothes clean.

"Me don't mind washie clothes," the Chinaman says, "but me don't all time like to live in teapot with a wet washie drying there."
